Cindy Crawford

25 years ago, Cosentino launched Silestone®, an innovative material that revolutionized the design of kitchen and bath surfaces around the globe.

To celebrate almost 3 decades of hard work and innovation, we are launching a new campaign in which, once again, we are surrounded by great personalities from the world of sport, culture, kitchen and fashion. Men and women who, thanks to their determination and professionalism, have arrived to the top of their careers and, as complicated as it is,

have managed to stay on top. The “Tops on Top” campaign starts with one of the most well-known and valued Top Models in the world. Surprisingly, Cindy Crawford is a simple, down to earth and very close person. The secret to success for this American supermodel is simple and it is very similar to the Cosentino DNA values: a solid family relation, passion for work and humility.

In an exclusive interview after shooting, the brand-new image of “Tops on Top” tell us about her greatest passions.

Courgette spaghetti

By Marta Simonet

Ingredients

1 courgette
100 g of jumbo prawns
2 garlic cloves
1 tablespoon of curry
100 g of cherry tomatoes
Fresh chives
Fresh basil
Sesame seeds
Olive oil
Salt and pepper

Preparation

1

Spiralise the courgette

Wash the courgette well, do not peel, cut in large pieces so it can pass through the spiralizer. Turn courgette in the spiralizer as though it were a pencil sharpener in order to make spaghetti. Steam the spiral strands for no more than a minute and put to one side.

2

Prepare the marinade for the jumbo prawns

In a medium-sized bowl, add the curry, grated fresh garlic, and a splash of olive oil. Season to taste. Mix well and add the cooked jumbo prawns. Mix again and let stand for a few minutes so they take on the aroma and flavour.

3

Caramelize the tomatoes

Cut the tomatoes in half and sauté briefly in a pan with a splash of olive oil, on the cut side only, without turning over. The aim is to boost the flavour of the tomatoes, maintaining their firmness without cooking them.

4

Serve the spaghetti

Place the courgette spirals on a plate. Add the caramelised tomatoes and the marinated prawns. Sprinkle with chopped fresh chives, a few leaves of fresh basil and a pinch of sesame seeds.

Ideas for your Kitchen

Are you thinking of redecorating your kitchen or creating a more original design? If so, don't miss our innovative ideas for decorating with style and a unique personality.

Choose slate paint

Thanks to this type of paint, you can easily redesign your kitchen, using it on walls, furniture and electro domestic appliances alike. Go for traditional colours like green and black or choose innovative options such as yellow.

Add decorative vinyl

It will allow you to give new life to your kitchen and masterfully update its look. You can use it to redecorate the front of wardrobes and drawers or to change the look of your electrodomestic appliances.

Decorate with facades

It's the quintessential work area. Choose materials which allow easy cleaning and maintenance. You can choose the same colour to obtain a visually unified kitchen or another totally different one to create interesting contrasts.

Choose black for your kitchen

If you like contemporary designs and your kitchen is especially light, choose the colour black to create a modern, sophisticated look. You can also create very interesting contrasts with white.

Out-of-place objects

Make your kitchen transmit originality and personality by introducing elements which aren't a part of it. Some examples could be a large painting leaning against the wall or a sculpture.

Mix different styles

Design a unique kitchen by mixing Nordic style and Rustic style: contemporary furniture in a very industrial style space, with appliances on view, brick walls and cement floors.

Benefits of Silestone®

Silestone® is Natural Quartz created to provide colour and texture for bath and kitchen surfaces. Thanks to its physical and chemical properties, a result of years of investigation, it guarantees maximum hygiene and safety.

Resistance to Stains

Silestone® is a non-porous surface which is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, make-up and many other daily-use products.

Resistant to Impacts

Silestone® high level of resistance to impacts allows very hard objects (pots, trays, etc.) to be handled with total ease.
